

All-new 60 series Flexi-Coil air carts

Unparalleled performance and productivity

The all-new 60 series Flexi-Coil air carts redefine seeding and application accuracy, productivity, reliability and efficiency in Australia.

With seven new models available in configurations of two, three and four tanks, tow between or tow behind, with huge capacities up to 33,477 litres – the air cart you've been waiting for has arrived.

Setting a new standard in seeding

Designed for maximum productivity, efficiency and accuracy

A large, white and black Flexi-Coil 60 Series air cart is shown in a field. The cart has a large cylindrical tank with the 'flexi coil' logo and the number '60' on it. It features a metal platform on top with railings and a set of large, treaded tires. The cart is connected to a trailer with several large, white, flexible hoses. The background is a clear blue sky and a green field.

Flexi-Coil's 60 Series air carts are designed from the ground up with an unprecedented number of patent-pending features that ensure ease of operation, productivity, safety and return on investment.

Accurate sectional control

FlexRate™ sectional control means you can individually control up to 10 sections of the air cart, giving you greater application accuracy than ever before and eliminating double applications of seed and fertiliser.

Increased productivity

The new 60 series distribution system gives you accurate product flow and gentle seed handling, reduced seed cracking and scarring and improved seed germination. This means your crop has the best possible chance right from the start.

Seed for longer between fills with greater tank capacity. Choose capacities from 12,234 litres to a huge 33,477 litres and make fewer stops to ensure you get the job done efficiently. Auger or conveyor delivers quick fill, increasing productivity, providing more time for seeding.

Greater blending flexibility

Blending flexibility helps you get the job done efficiently. Each primary run metering system operates using a patented, independent 24 volt electric drive motor with integrated controls. You can apply product in single-shoot or double-shoot applications with the FlexRate™ Modular Metering System. You can distribute and combine any tank to any primary run.

Enhanced ease of use and accessibility

Today's growers need highly-adjustable seeders with advanced monitoring, automated sensors and on the go control. Set and vary product rates right from the tractor cab and take the guess work out of rate setting with a smart FlexControl IV touchscreen.

Flexi-Coil air carts are built with accessibility, safety and versatility in mind. The new 60 series delivers easy access for inspection and maintenance.

Air cart specifications

MODEL	3560	4460	4660	5560	5860	7660	9560
CAPACITIES

PRODUCT DELIVERY	
Product Delivery	Type B System - Primary division at meter and secondary division on seeding implement
Meter Drive System	FlexRate Modular Metering System / Multi segment variable rate metering
Fan System	Standard with two single fans for double shoot
Sectional Control	Optional 10 run / expandable up to 12 run

DIMENSIONS							
Height	189 " (4.79 m)	186 " (4.73 m)	186 " (4.73 m)	188 " (4.78 m)	188 " (4.78 m)	210 " (5.34 m)	210 " (5.34 m)
Height (With handrails down)	154 " (3.90 m)	154 " (3.91 m)	154 " (3.91 m)	160 " (4.05 m)	160 " (4.05 m)	188 " (4.76 m)	188 " (4.76 m)
Width	166 " (4.21 m)	221 " (5.62 m)	233 " (5.90 m)	254 " (6.45 m)			
Tow-Behind Weight	14,351 lb (6,510 kg)	16,330 lb (7,407 kg)	17,622 lb (7,993 kg)	18,289 lb (8,313 kg)	19,620 lb (8,899 kg)	21,494 lb (9,750 kg)	31,438 lb (14,260 kg)

FILLING SYSTEM							
Main Tank	10" Auger	Deluxe 10" Auger with remote control	Fast Fill Conveyor with remote control				
Small Seeds Tank	NA	NA	Pneumatic	NA	Pneumatic		

A dedicated dealer network

You're in the hands of a professional dealer network that provides the right advice and outstanding aftersales service and support. With almost 50 outlets across Australia, the Flexi-Coil dealer network is committed to supporting Flexi-Coil customers.
